

Rustic Watering Can Stand-up Puzzle

Design By
A. Baggetta
(c)2011

Permission granted to use as you please
but please give credit when posting.

Notes: Cut from 1/2" poplar. I suggest you
cut out the water droplets first and then
work around the interior and exterior cuts.
You can stand the puzzle up at an angle as
show or upright using the bottom of the can
as a base.
